

Special Issue

Managing Sustainable Cities in Uncertain Times

Message from the Guest Editors

We live in uncertain times with the COVID-19 pandemic, global stagflation, spiking interest rates, fiscal crises. This Special Issue covers topics such as:

- Frameworks for urban management;
- Urban governance;
- Modes of policy intervention;
- Management of functional areas.

Frameworks deal with the objectives, scope, objects, and approaches to urban management. Governance deals with decision-making processes and capacity-building covering transparency, accountability, inclusiveness, participation, and rule of law. The modes of policy intervention include conservative, liberal, and other perspectives in formulating urban policies. The functional areas include town planning, local economic development, housing, urban service delivery methods, public utilities, social services, general urban services, and transport. Infrastructure systems are also inter-dependent, and hence more complex to manage.

We welcome contributors from the developed and developing countries to share their experiences in managing their cities sustainably in these uncertain times.

Guest Editors

Prof. Dr. Willie Tan

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon
School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
