Transdisciplinary Perspectives on Environment and Communication

Message from the Guest Editors

Submissions are welcome from a mix of fields—such as social studies of natural resources and the environment, science communication, and impact assessment. They are also welcome from various mixtures of cultural, communication and media studies, social psychology, sociology, cultural anthropology, political economy, and organisational studies.

Manuscripts should be drafted in order to be accessible and sensible to people outside your field and discipline. Co-authorship with partners in other disciplines and outside universities is welcome, and articles are invited that feature 'multiple voices'.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
