

Special Issue

The Path to Sustainable Technological Entrepreneurship

Message from the Guest Editors

This Special Issue focuses on the role of technological entrepreneurship in the ecosystem of environmental–social–economic sustainable development, both in global and local contexts. First, it aims to explore perceptions, theories, policies, strategies, and practices related to various ways in which technology can and should serve global challenges. Second, it aims to better understand whether and how novel technological initiatives can and should be conceptualized, structured, and operated in a sustainable manner in line with the double or triple bottom line, where businesses aim to create economic value as well as environmental and social value (Norman and MacDonald, 2004). We welcome theoretical, empirical, conceptual, and experimental studies significantly contributing to the theory and practice of integrating sustainability and technological entrepreneurship. We are open to a wide range of research methods, as long as they are consistent with the aims and scope of this Special Issue.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
