

Special Issue

Latest Advances and Prospects in Sustainable Waste Management

Message from the Guest Editors

This Special Issue aims to provide a comprehensive overview of the latest advances and prospects in sustainable waste management. This Special Issue will disseminate high-quality research and stimulate interdisciplinary discussions. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Recent developments on waste reduction, recycling, and resource recovery methods.
- Innovative technologies and strategies on treatment and recycling practices, including ICT (information and communication technologies).
- Challenges and opportunities for sustainable waste management in developing economic regions.
- Policy and regulatory measures towards sustainable waste management.
- Environmental and health risks assessment related to waste management.
- Incorporating and integrating circular economy concepts in the waste management process,
- Identification and analysis of awareness-raising activities to promote sustainability in waste management practices.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
