

Special Issue

Digital Teaching and Development in Sustainable Higher Education

Message from the Guest Editor

Higher education institutions play a vital role in shaping future leaders. In this Special Issue, we invite contributions of original research articles and reviews that explore the intersection of sustainability in higher education and digital teaching and development. We seek scholarly articles elucidating innovative approaches and theoretical frameworks that advance the integration of sustainability into digital learning environments. Research areas may include (but are not limited to) the following:

- Digital curriculum development for sustainability integration.
- Online resource management and accessibility for sustainable education.
- Digital assessment and feedback methods for sustainable evaluation.
- Remote collaboration and project-based learning for sustainable development.
- Role of authoring tools in sustainable content creation.
- Social media in sustainable higher education.
- Virtual reality and augmented reality for immersive sustainable education.
- Mobile learning applications for sustainable education.
- Open educational resources and sustainable knowledge sharing.

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
