

Special Issue

Low-Carbon Economy and Trade and the Sustainable Development of Medium-Sized Urban Agglomeration

Message from the Guest Editors

This Special Issue is dedicated to the most recent advances in the research of low-carbon economics and trade and the sustainable development of medium-sized urban agglomeration. We invite scientists and investigators to contribute original research and review articles, which address the topics of the issue. Potential topics include, but are not limited to:

- Low-carbon assessment based on life-cycle theory;
- The strategy of low-carbon economics based on life-cycle theory;
- The sustainable development model and its implementation methods;
- A low-carbon trade model based on the synergetic implementation of benefits;
- Urban development sustainability assessment based on multiple perspectives;
- The sustainable management and technology of urban garbage under the goal of "carbon neutrality";
- The sustainable management and development of colleges and universities;
- The theory of sustainable management in the relationship between economy and environment;
- The carbon footprint evolution of economic behavior in medium-sized urban agglomeration;

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
