

Special Issue

Creating an Innovative Learning Environment

Message from the Guest Editor

- The focus of this special issue will be on how innovation in teaching, technology, and curriculum design can foster dynamic, inclusive, and effective learning environments. We welcome papers that explore a broad range of topics related to creating spaces where learners can thrive—whether physical, virtual, or hybrid. We are particularly interested in research that examines the intersection of pedagogy, digital tools, student engagement, and the broader social and cultural contexts in which learning occurs.
- In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:
 - The role of technology in shaping learning spaces
 - Innovations in pedagogical approaches and teaching methodologies
 - The impact of social and cultural factors on learning environments
 - Designing inclusive learning spaces for diverse student populations
 - Collaborative and interdisciplinary approaches to teaching and learning
 - The future of educational spaces in a post-pandemic world

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
