

Special Issue

Sustainable Risk Management

Message from the Guest Editors

The purpose of this Special Issue is to explore different approaches to future risk management practices. These new perspectives will aid us in better addressing existing and emerging risks, thereby promoting the construction of a more comprehensive and sustainable resilient risk society. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Concepts, frameworks, and strategies of sustainable risk management;
- Disaster risk management;
- Risk assessment;
- Public risk perception;
- Risk resilience;
- Policies for risk management in resilient societies;
- Risk response strategies and disaster mitigation plans;
- Studies on disaster recovery capabilities;
- Emergency management;
- Other topics related to risk management.

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
