# Sustainable Business and Corporate Performance: Opportunities and Challenges

# Message from the Guest Editor

'Sustainability', the capacity to support, maintain or preserve, has emerged as one of the crucial considerations in corporate strategies for firms to survive the VUCA (volatility, uncertainty, complexity, and ambiguity) environments and perform better. It is therefore important to examine the ways in which firms behave differently in high-tech areas to sustain growth and determine the appropriate role for innovation in terms of corporate performance in a constantly changing and competitive business world.

We invite researchers in related fields to submit papers on any theoretical and empirical analysis, qualitative and quantitative studies, as well as new methods, models, and techniques to explore opportunities and challenges of "Sustainable Business and Corporate Performance" from diverse perspectives.

These include but are not limited to:

- Sustainability as a pillar of new strategies for competitive businesses;
- Environmental, social, and governance (ESG) in relation to corporate performance;
- Technology and innovation management for sustainable business.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

### **Author Benefits**

# Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
