Special Issue

Integrative Waste Management and Circular Economy: Addressing Climate Change and Enhancing Sustainability

Message from the Guest Editors

In the face of escalating environmental challenges, the integration of waste management and circular economy principles, particularly in the context of climate change, is becoming increasingly crucial for sustainable development. This Special Issue invites pioneering research that explores the synergies between waste management, circular economy practices, and climate change mitigation and adaptation strategies. Our goal is to highlight innovative approaches that not only reduce waste and promote resource efficiency but also contribute to climate change resilience in various sectors.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
