# Integrating Sustainability Management in the Social Economy Sector—Challenges and Opportunities

# Message from the Guest Editors

Creating a development model aligned with the principles of environmental and social sustainability is a challenge that cannot be overcome without the active participation of the social economy sector The social economy aims to achieve the Sustainable Development Goals (SDGs) through their mission and operations. However, the integration of sustainability management tools into daily practices and activities is still a challenge for most organizations. Increased knowledge of sustainability management in social economy organizations contributes to enhanced sustainabilityoriented practices. This is particularly important in a sector that is facing increasing pressures to demonstrate the achievement of social and/or environmental goals. The purpose of this Special Issue is to encourage the sharing of research studies on sustainability management in the social economy sector, covering economic, environmental, and/or social topics.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA
