

Special Issue

Sustainable Production of Renewable Energy

Message from the Guest Editor

By 2030, investments in renewable technologies may even triple. The use of renewable resources is undergoing such a large growth because it satisfies the four great paradigms of an energy system: economy, environment, security of supply and acceptance by the population. This special edition will try to group all the scientific works that help to increase knowledge in this entire energy chain. Therefore, the focus will be set on how renewable energies impact on economic aspects, the security of supply, the environment and social acceptance.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
