

Special Issue

Supply Chain & Logistics System Evolutions: Achieving Innovative Industrial Platforms and Digital Ecosystem Transformation

Message from the Guest Editors

This Special Issue explores Supply Chain and Logistics System Evolutions related to Industry 5.0, national industrial policy changes and digital transformation. In the context of increasing turbulence and increasing uncertainty in global market environments, the research frontiers of supply chain and logistics are also expanding. This special issue accepts quality papers in using diverse research methods such as conceptual, case studies, empirical, analytical and experimental methods. The research papers can be related to following but not limited to:

- Climate change and supply chain management
- Environmental dynamics and logistics responses
- Evolving practices of supply chain and logistics management
- Industry 5.0 and technology infrastructure
- Industrial platforms and digital transformation
- International order and global supply chain design
- Industrial policy and firm supply chain strategy
- Metaverse and cyber-security
- Post pandemic world and supply chain resilience

Guest Editors

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
