

Special Issue

Sustainable Built Environments: Energy Efficiency and Indoor Air Quality

Message from the Guest Editor

This Special Issue focuses on the technical application of energy-saving building systems, the monitoring and management of indoor air quality, and the interaction between the two. In this Special Issue, original research articles and reviews are welcomed. Research areas may include (but are not limited to) the following:

- Indoor environment quality, climate ventilation, and airtightness;
- Ventilation in relation to IAQ and health aspects;
- Smart technologies for building performance;
- HVAC systems;
- Building system integration and operation;
- Green building and IAQ;
- Indoor radon management and mitigation;
- Managing indoor air quality and energy efficiency.

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
