

## Special Issue

# Sustainable Urban Water Management—Progress in the 21st Century

### Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome and research areas may include, but are not limited to:

- Sustainable urban water management in theory and practice;
- Cost-benefit analysis;
- Life cycle analysis;
- Stormwater reuse;
- Wastewater reuse and recycling;
- Fit-for-purpose water sources;
- Examples of retrofitting urban areas for SUWM;
- Nutrient capture and reuse from stormwater and wastewater;
- Biodiversity and environmental benefits arising from SUWM;
- Implementation of advanced technologies;
- Low-tech SUWM solutions in low-middle income countries;
- Societal benefits arising from SUWM.

I look forward to receiving your contributions.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
