Special Issue

Driving Green Innovation in Smart Cities

Message from the Guest Editors

This Special Issue aims to provide detailed insights that inform more effective and sustainable urban development strategies, ensuring the harmonious integration of technological advancements with the governance and market conditions that shape them. The scope of this Special Issue includes, but is not limited to, the following topics:

- Regulatory frameworks for green innovation in urban settings
- Comparative analysis of smart city policies across different regions
- Governance challenges in implementing green urban initiatives
- Role of financial incentives in promoting sustainable urban projects
- Green financing and investment strategies for smart cities
- Market barriers to the adoption of eco-friendly technologies
- Smart grids and renewable energy integration
- Circular economy models within smart city frameworks
- Data-driven decision-making for sustainable urban planning
- Public-private partnerships in sustainable urban development
- Community engagement and social innovation for green cities
- Corporate social responsibility and urban sustainability

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA
