

Special Issue

Public Health and Sustainable Development: Justice, Inclusivity, and Financing for a Resilient Future—2nd Edition

Message from the Guest Editor

This Special Issue focuses on current research and scholarship relating public health to sustainable development. Promoting human health and well-being for a sustainable future requires development to be just, equitable and inclusive. The outbreak of COVID-19 presented major challenges for disease control, and rebounding from it required policies that are not coercive and do not harm social stability and harmony. Outbreaks from other emerging infectious diseases are expected in the future, through which society must adapt and flourish. Contributors to this Special Issue are invited to share their research on innovative approaches to sustainable development for human health protection and health promotion. This could include the following: health system reform, vaccination and masking policies, transboundary pollution analysis, systems modeling, mitigation of health impacts of flooding and natural disasters and reduction in harmful effects of water and air pollution.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
