

Special Issue

Sustainable Agriculture and Food Security

Message from the Guest Editors

The issue of food security is frequently addressed through sustainable agriculture and food security. This Special Issue invites studies that contribute to the creation of more ecologically friendly agricultural and food systems that better address local, regional, national, and/or global food and nutritional insecurity. We also invite the submission of research-related articles in the domain of food security. We particularly encourage research that emphasizes economic analysis and articulates policy implications. Contributions from relevant academic disciplines, such as agriculture, ecology, the environment, nutrition, public health, and policy, are welcomed to contribute to this Special Issue on Agriculture and Food Security. The scope of the Special Issue includes, but is not limited to:

- Quality food production;
- Environmental and water management;
- Soil and crop management;
- Animal production and management;
- Food safety and nutrition;
- Socio-economics, marketing, and policy development.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
