Special Issue

Sustainable Food Quality and Food Processing

Message from the Guest Editors

This Special Issue, titled "Sustainable Food Quality and Food Processing", focuses on the integration of sustainability principles with preservation and enhancement of food quality, understood in terms of nutritional composition, sensory characteristics, and technological stability. In this context, this Special Issue highlights innovative processing methods, efficient resource utilization, reduction of environmental impact, and valorization of by-products within circular food systems. Objectives of this Special Issue are as follows:

- To examine innovative and sustainable processing methods that improve food quality while reducing environmental impact.
- To evaluate strategies for efficient resource utilization and valorization of by-products within circular food systems.
- To investigate the effects of sustainable approaches on nutritional, functional, sensory, and technological attributes of food.
- To provide interdisciplinary insights that integrate scientific, technological, and socio-economic perspectives in sustainable food systems.
- To promote knowledge exchange and highlight practical solutions supporting the transition towards durable and responsible agri-food chains.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
