

## Special Issue

# Selected Papers from the 11th European Conference on Renewable Energy Systems

### Message from the Guest Editors

This issue is devoted to the highly qualified selected papers of 11th European Conference on Renewable Energy Systems (ECRES2023 – [ecres.net](http://ecres.net)), which will take place in Riga, Latvia in hybrid format. This international event is expected to have participants from more than 60 countries.

ECRES aims to bring together researchers, engineers, and natural scientists from all over the world that are interested in the advancement of all branches of renewable energy systems. Wind, solar, hydrogen, hydrothermal, geothermal, and solar concentrating systems, fuel cells, energy harvesting, and other energy-related topics are welcome.

The papers for this Special Issue have been already submitted to the ECRES 2023 conference via the link: <https://cmt3.research.microsoft.com/ECRES2023> and presented to the conference successfully. After approval, the successful papers will be directed to the journal.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
