

Special Issue

Risk Management for Sustainability and Wellbeing: Governance, Measurement, and Decision-Making in Organizations

Message from the Guest Editors

This Special Issue addresses this critical gap by explicitly positioning wellbeing as a measurable, governable, and decision-relevant risk domain within sustainability and ESG-oriented risk management frameworks. Rather than treating wellbeing as a broad social aspiration, this Special Issue focuses on how formal risk management tools, governance mechanisms, performance metrics, and decision-making models can systematically integrate wellbeing risks into organisational strategy and sustainability governance.

The Special Issue seeks to bring together interdisciplinary contributions from risk management, sustainability studies, corporate governance, behavioural science, economics, public policy, and digital transformation. We aim to advance both theory and practice on managing wellbeing-related risks in complex organisational and regulatory environments.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
