

Special Issue

Artificial Intelligence (AI) for the Sustainable Economics and Business

Message from the Guest Editors

With the prosperity of the era of artificial intelligence and the wide application of computer science technology led by machine learning in multiple scientific and social fields, research scholars must now focus on how to use AI technology to solve the issues of economy, finance and management in a much more sustainable way.

Special issue topics include, but are not limited to✉

- AI-related econometrics and applied economics;
- Blockchain and financial engineering;
- Business models;
- Business intelligence and knowledge management;
- Environment, critical and disaster management;
- Financial market management;
- Logistics and value chain management;
- Management and corporate governance;
- Marketing management and brand management;
- Information systems management;
- Industry economics and industrial organization management;
- Innovation and technological change management;
- Operations research;
- Public policy and management;
- Risk management.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
