Special Issue

Digital Transformation of Sustainable Education in the Context of Emerging Economies

Message from the Guest Editor

A key area of focus in this transformation is the acceptance and implementation of e-learning in universities. While e-learning offers vast potential for expanding access to education, its adoption is influenced by a range of factors. These include technological readiness, institutional support, digital literacy among both students and educators, and cultural attitudes towards online learning. Understanding these factors is essential to successfully integrating e-learning platforms and ensuring sustainable education in university settings. Topics of interest for this Special Issue include, but are not limited to, the following:

- Digital learning platforms and tools;
- Accessibility and inclusion in digital education;
- Sustainable educational practices through technology;
- Challenges and opportunities in emerging economies;
- Technology-driven educational innovations;
- E-learning acceptance.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
