

Special Issue

Green Transition and Technology for Sustainable Management

Message from the Guest Editors

This Special Issue aims to explore the intersection between sustainability, digital innovation, and green technologies in driving the transition toward more environmentally responsible and resource-efficient business practices. The main focus of this Special Issue is on how emerging technologies, digital transformations, and policy frameworks can facilitate sustainable management across industries, fostering long-term economic and ecological resilience. This Special Issue aligns with the journal's focus on sustainability, environmental management, and technology-driven business transformation by (1) investigating technological solutions for achieving sustainability goals; (2) Examining policy frameworks and regulatory mechanisms that support the green transition; (3) Highlighting case studies and best practices in corporate sustainability, digital business models, and green entrepreneurship; and (4) assessing the economic, social, and environmental impact of digital innovation in sustainability efforts.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
