

Special Issue

Global Strategies for Sustainable Energy Transitions: Innovations and Reflections

Message from the Guest Editors

This Special Issue on "Global Strategies for Sustainable Energy Transitions: Innovations and Reflections" aims to delve into pioneering approaches and offer crucial insights into the worldwide shift toward renewable energy. As the world confronts the pressing challenges of climate change and the urgent imperative to reduce carbon emissions, innovative strategies and in-depth reflections on renewable energy transitions are essential. This issue will cover a comprehensive array of topics, including renewable energy strategies, sustainable energy transitions, distributed energy resources, techno-economic analysis, energy policy and governance, technological innovations in energy, integration of renewable systems, and the socio-economic impacts of energy transitions. We aim to showcase successful case studies, pinpoint obstacles, and suggest actionable solutions to overcome them. By examining diverse regional experiences and the socio-economic consequences of energy transitions, this Special Issue aspires to deepen the understanding of sustainable energy practices and stimulate global collaboration toward a cleaner, more resilient energy future.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
