

Special Issue

Effectiveness Evaluation of Sustainable Climate Policies

Message from the Guest Editors

Many countries have adopted several economic instruments, such as tax and emissions trading, to deal with climate change. These policies could theoretically encourage the emitters to reduce greenhouse gas emissions and realize the green transition. However, several economic, political, or social factors could to a certain extent influence the effectiveness of these policies.

This Special Issue will collate a selection of high-quality and novel research contributions evaluating the effectiveness of climate policies.

Suggested themes for this Special Issue may include, but are not limited to, the following: The impact(s) of climate policy on greenhouse gas emissions reduction; The impact(s) of climate policy on green transition of economies;

The impact(s) of climate policy on optimization and adjustment of economic sectors;

The impact(s) of climate policy on development of renewable energy;

The impact(s) of climate policy on green technological innovation;

The impact(s) of climate policy on ESG decisions of incumbent firms;

The impact(s) of climate policy on competitiveness of incumbent firms.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
