Special Issue

Interpretable and Explainable AI Applications

Message from the Guest Editors

This Special Issue will target contributions that consider the broader view of the field that aims to investigate how AI systems explain themselves, either via interpretability or a combination of interpretability and explainability. The aim of this Special Issue is to provide a leading forum for the timely, in-depth presentation of recent advances in the research and development of interpretability and explainability techniques for AI applications. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- How artificial intelligence methods and systems explain their decisions;
- Interpretability of AI models and methods;
- Validation of explainability or interpretability approaches for AI;
- Robustness of methods for interpretability and explainability;
- Applications adopting AI methods with explainability or interpretability methods;
- Applications benefiting from different types of explanation contents, e.g., counterfactuals, feature attribution, instance attribution;
- Social aspects of explainability and interpretability in AI;
- Accountability of AI systems.

Deadline for manuscript submissions

closed (30 September 2024)

Sustainability

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon
School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:
JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
