

Special Issue

Energy Transition and the Collaborative Governance for Reduction of Pollution and Carbon Emissions

Message from the Guest Editors

This Special Issue aims to explore the innovative theory and practice that refers to energy transition, environmental impact assessment, pollution and carbon reduction, synergistic scenario modeling and quantification for sustainability. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Energy transition and energy security
- Collaborative governance for carbon abatement and pollution reduction
- Drivers of energy transition and paths in energy supply, consumption, technology, and governance
- Energy conservation and emission reduction in carbon-intensive industries
- Blockchain and green development
- Energy transition and pollution and carbon reduction and their synergies at temporal and spatial scales
- Energy transition and carbon neutrality
- Climate change, carbon emissions, and energy transition
- Construction of the new energy system

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
