

## Special Issue

# Sustainable Development of Digital Economy under Industry 4.0 and Smart City

### Message from the Guest Editors

The rapid development of digital technologies, such as AI, robotics, IoT, cloud computing, Big Data, Smart Grid, and self-driving technology has greatly impacted our society and economy, leading to the emergence of Industry 4.0 and Smart Cities. Sustainable development of the digital economy under Industry 4.0 and Smart City has become an urgent and critical issue that requires innovative solutions. We invite original research articles, reviews, and case studies that address, but are not limited to, the following topics:

- AI and robotics management for Industry 4.0 and Smart City,
- Sustainable development of AI and robotics technologies,
- Ethical issues of AI and robotics,
- Data privacy and cybersecurity for the sustainable digital economy,
- Ethics and governance of the digital economy,
- Sustainable digital economy and green computing,
- Smart city and sustainable urban development,
- Social sustainability and digital inclusion,
- Industry 4.0 and sustainable manufacturing,
- Circular economy and sustainable supply chain,
- Sustainable business models and innovation.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
