

## Special Issue

# Traditional Water Management Systems as Living Cultural Heritage in a Changing World

### Message from the Guest Editors

Dear Colleagues: This Special Issue calls for contributions that highlight the value of endangered heritage with centuries-old development in relation to the following (non-exclusive) list of topics: (i) the transformation of natural and cultural landscapes in line with the introduction of water harvesting and management systems; (ii) quantitative approaches evaluating the efficiency of such systems; (iii) interdisciplinary research considering social and socio-economic aspects of water harvesting and water management systems; (iv) trajectories of change for future climate and land use scenarios; and (v) traditional knowledge related to these systems. We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
