Special Issue

Strategies towards Zero Waste: Sustainable Waste Management and Recycling

Message from the Guest Editor

In the present Special Issue, original short communications, research articles, and reviews are welcome. Research areas may include (but are not limited to) the following topics:

- Innovative waste management and recycling methodologies.
- Recovery of raw materials from industrial waste (clothes, e-waste, food, tailings, and sludge).
- Innovative alternatives to generate new products and services from waste.
- Biological approaches to reduce the impacts of waste on the environment.
- Applications in agriculture, food, medicine, construction, and industry.
- Studies on the social, economic, and environmental impact of adapting waste management and recycling strategies.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
