New Trends in Organizational Psychology

Message from the Guest Editor

Recently, technological developments (i.e., virtual work) and changes in the nature of work (i.e., remote work) have raised the issue that employees need to take more responsibility for their work outcomes and progress. This perspective of work has placed the employee at center stage, creating a need for research that highlights the ways in which employees are active and proactive in changing the work and themselves each day to perform their job. This direction is concurrent with positive organizational behavior (POB) as a research avenue.

Thus, in this dynamic organizational context, researchers should discover new predictors of work-related well-being, which can be a step forward in integrating positive organizational psychology in emerging domains (i.e., positive artificial intelligence). However, aligning new technological innovations (like VR, AR, or machine learning) with positive psychological intervention in organizations could add more value for HR specialists.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
