Advancing Regional Environmental Evolution: Integrating Sustainable Energy Resource Management and Green Consumption

Message from the Guest Editors

As global climate change intensifies and natural resources continue to diminish, driving the regional environmental evolution through the integration of sustainable energy resource management and green consumption behaviors is urgently needed. This imperative concerns not only environmental sustainability but also the stable development of economies and the long-term welfare of societies. Innovative strategies for sustainable energy management, the promotion of green consumption behaviors, the development and application of renewable energy technologies, and effective energy conservation measures are all key to achieving environmental sustainability.

The topics including innovative strategies for sustainable energy management, empirical studies on the environmental impact of green consumption behaviors, the development and application of renewable energy technologies, efficiency analyses of energy conservation measures, climate change mitigation strategies, solutions to environmental degradation, factors driving sustainable consumer behaviors, and policy interventions to enhance energy efficiency.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
