

## Special Issue

# Sustainable Business Performance on International Entrepreneurship

### Message from the Guest Editors

A growing number of social and environmental issues and challenges have become imperatives for businesses, governments and the international community. A global movement to encourage businesses to pay more attention to their social and environmental impacts has gained momentum in recent years. We invite papers that seek to address the challenges to sustainable business performance to international entrepreneurship. We particularly welcome papers that focus on the following:

How international companies, small and large, can put sustainability at the heart of their business strategy and thus make a difference.

Sustainability embedded in business models and products

The effect of sustainable business performance on growth

The role of governments in promoting social responsibility and environmental sustainability

The role of NGOs in promoting social responsibility and environmental sustainability

The role of international community in promoting social responsibility and environmental sustainability

The role of entrepreneurship education in sustainability-embedded models

The role of educational policies (e.g., GreenComp) in sustainable education for the youth

---

### Guest Editors

Prof. Dr. Panagiotis Liargovas

Dr. Nikolaos Apostolopoulos

Dr. Alexandros D. Kakouris

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
