

Special Issue

Beyond Profit: Exploring the Role of Digital Management in Sustainable Business Development

Message from the Guest Editor

In the spring of 2020, the COVID-19 pandemic forced global companies to shift operations online, leading to a surge in virtual interactions across various sectors such as education, healthcare, and public administration. The Special Issue emphasizes the environmental consequences of the intense use of virtual realities and immersive technologies in workplaces and educational settings, discussing the significant energy demands and contributions to global warming. This call for papers seeks solutions to address this tension, focusing on strategies to reconcile ongoing innovation with environmental responsibility. It encourages contributions that explore the ecological impact of immersive technologies, considering issues such as energy consumption, storage requirements, and the associated environmental consequences. Authors are encouraged to propose strategic actions for companies to ensure the ethical and compliant use of immersive platforms in the context of environmental sustainability. This research aims to provide insights into how to navigate the challenges posed by energy-intensive technologies while minimizing their ecological footprint.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
