

Special Issue

Internet of Things-Based Smart Systems in Industrial and Manufacturing Management

Message from the Guest Editors

This special issue investigates the transformative role of IoT-based smart networks in revolutionizing industrial and manufacturing management, emphasizing the integration of cutting-edge technologies such as industrial big data analytics, 5G connectivity, generative AI, edge computing, and digital twins. The focus centers on leveraging these advancements to enhance operational efficiency, sustainability, and adaptive decision-making in Industry 5.0 ecosystems.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
