

## Special Issue

# Economic, Social, and Cultural Aspects of Circular Economy

### Message from the Guest Editor

The relation between net zero and the circular economy, behavioral aspects of the circular economy and the cultural and social aspects of the circular economy will be discussed in this Special Issue. We welcome contributions on the concept of circular economy in the following fields: electricity, transportation, buildings, industry, etc. We also welcome studies that focus on recycling, reusing, remanufacturing, remodeling, retrofitting and rearranging, providing not only economic perspectives but also social and cultural perspectives on the circular economy. Focus and Scope: The presentation of various cases on the circular economy in the sectors of electricity, transportation, buildings and industry from economic, social, and cultural perspectives. Purpose: We aim to present the progress of the circular economy at the micro, meso and macro level.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
