Special Issue

Sustainability Planning and Design Post-disaster

Message from the Guest Editors

This Special Issue seeks to solicit scholarly and practitioner contributions focusing on post-disaster rebuilding efforts, leveraging insights from recent calamities, innovative planning, and development strategies. By examining actual scenarios and pre- or post-disaster innovations, this collection aims to foster discourse on promoting sustainable building outcomes amidst evolving climate-related challenges. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Post-disaster rebuilding;
- Post-disaster innovations:
- Post-disaster resettlements;
- Disaster resilience;
- Sustainable planning and design;
- Impacts of disasters:
- Disaster risk reduction;
- Disaster management;
- Climate change adaptation.

We look forward to receiving your contributions.
