

## Special Issue

# Sustainability Planning and Design Post-disaster

### Message from the Guest Editors

This Special Issue seeks to solicit scholarly and practitioner contributions focusing on post-disaster rebuilding efforts, leveraging insights from recent calamities, innovative planning, and development strategies. By examining actual scenarios and pre- or post-disaster innovations, this collection aims to foster discourse on promoting sustainable building outcomes amidst evolving climate-related challenges. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Post-disaster rebuilding;
- Post-disaster innovations;
- Post-disaster resettlements;
- Disaster resilience;
- Sustainable planning and design;
- Impacts of disasters;
- Disaster risk reduction;
- Disaster management;
- Climate change adaptation.

We look forward to receiving your contributions.

---

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
