

## Special Issue

# Corporate Social Responsibility (CSR) and Sustainable Development Goals

### Message from the Guest Editor

Corporate Social Responsibility (CSR) has significantly evolved over the last fifteen years, both in academia and practice. Strategic CSR incorporates social goals with organizational planning and business operations. This Special Issue looks forward to receiving: (a) empirical papers that offer real managerial implications to organizations, (b) systematic literature reviews that summarize the field, offer critical views, identify gaps and suggest opportunities for future research, and (c) conceptual papers that offer unique approaches, built theoretical frameworks and contribute towards better understanding the issues at hand. The main topics of interest for this Special Issue include, but are not limited to:

- Strategic Corporate Social Responsibility (SCSR);
- Corporate Social Responsibility (CSR) and sustainable development;
- Corporate Social Responsibility (CSR) and Sustainable Development Goals (SDGs);
- (Creating/Generating) shared value;
- Environmental, social, and governance (ESG);
- Achieving competitive advantage through sustainability;
- CSR evolution/CSR history.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
