

Topical Collection

Measuring Progress towards the Achievement of Sustainable Development Goals (SDGs)

Message from the Collection Editor

This Special Issue focuses on the broad topic and includes novel research on the current status of the Global Goals adopted by the United Nations in 2015. The aim of the Special Issue is to expand the existing literature on this broad theme by offering new insights and future perspectives on sustainable economic development and growth in the light of today's challenges, changes, opportunities and threats brought by the pandemic, while focusing on such as sustainability, clean energy, quality education and the Sustainable Development Goals (SDGs).

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: the implications of sustainable development and sustainable businesses, international business environment, sustainable economic development and growth, corporate sustainability performance, corporate sustainability policies and practices, health and well-being, new methods and ways to achieve performance and excellence, entrepreneurship, small- and medium-sized enterprises, leadership, human resources management, successful business process management and quality management for businesses.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
