Special Issue

Exploring the Nexus Between Project Management, Innovation and Sustainability

Message from the Guest Editors

Sustainability in project management demands a fundamental paradigm shift in mindset from short-term success metrics (such as the iron triangle) on to long-term value creation with sustainable design and regenerative approaches, from isolated project goals to systemic impacts, and from reactive problem-solving to proactive opportunity-seeking. The major project management global bodies, such as IPMA, have already begun to align their standards and qualifications with these demands. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
