

Special Issue

Alliance Portfolio Management and Sustainability of Entrepreneurial Firms

Message from the Guest Editor

Sustainability is not simply equivalent to ecological or environmental protection. Natural sustainable development in the business world involves the most economic factors. How to ensure the sustainable development of an enterprise or economic model is the point of most concern for all business owners. The main scope of the section is to stimulate cross-sectoral exchange for the development of new policies, new technologies, new products, and new awareness towards a new sustainability-oriented society.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Innovation Management;
- Entrepreneurship;
- Sustainability Strategy;
- Public Policy.

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen
