

Special Issue

Sustainable Agricultural Development Economics and Policy 2nd Edition

Message from the Guest Editor

This Special Issue seeks manuscripts addressing the myriad of sustainable future pathways for agricultural economic development across the world from both an economic and a policy perspective. This can involve agricultural producers, the private sector, non-governmental organizations (NGOs), as well as national governments. Past successful strategies can be applied to new locations, current applied research showcased, and future proposals highlighted. Analyses should address some combination of economics and policy which can be integrated with other academic focuses (e.g., bio-physical modeling, rural sociology, agronomy, etc.).

Guest Editor

Dr. Aaron K. Hoshide

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
