

Special Issue

Development Economics and Sustainable Economic Growth

Message from the Guest Editor

In the complex journey of global progress, development economics, and sustainable economic growth are powerful forces shaping how societies evolve. It blends smoothly with sustainable economic growth. In this Special Issue, original research articles and reviews are welcome. Research areas may include, but are not limited to, the following:

- Environmental sustainability and economic development: investigating the impact of economic activities on the environment and proposing sustainable development pathways.
- Innovations in development finance: exploring new financing mechanisms that support sustainable economic growth in developing countries.
- Social capital and economic development: analyzing the role of social networks and institutions in fostering economic development.
- Technology and sustainable growth: assessing the contribution of technology to economic growth and its potential for sustainable development.
- Governance and institutional quality: investigating the influence of governance and institutional quality on economic development outcomes.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
