

## Special Issue

# Sustainable Digital Transformation in Higher Education: Enhancing Sustainable Smart Education

### Message from the Guest Editors

Dear colleagues, Higher education is following mainstream developments, but it also entails many specifics. With the rapid development of information technology, e-learning is becoming an increasingly important aspect of higher education studies. Smart e-learning is emerging within higher educational study programs, integrating augmented reality, artificial intelligence, gamification tools, simulation systems, collaboration tools, etc. These innovations can contribute to more engaging and practical training, preparing future specialists for the challenges of sustainable development in their professional fields. Although a number of good practices have been identified, many aspects of smart e-learning are still not well researched. With this Special Issue, we intend to fill this gap and add sustainability dimensions of smart e-learning concepts into the mix. This includes exploring the potential of these technologies to promote equal access to quality education (SDG 4) and to prepare students for sustainable practices in their future careers.

### Guest Editors

Prof. Dr. Silvia Parusheva  
Prof. Dr. Simona Sternad Zabukovsek  
Prof. Dr. Samo Bobek

### Deadline for manuscript submissions

10 October 2026

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
