

Special Issue

Development Trends in Environmental Economics, Environmental Policy, and Regional Sustainability—2nd Edition

Message from the Guest Editors

At present, major developed economies have reached the peak of carbon emissions, and many countries or regions have proposed timetables for achieving carbon neutrality. In this case, what are the differences and transitions in terms of policy tools, policy objectives, and policy subjects amongst various countries or regions? How should developing countries optimize the policy combinations at different stages? What successful experience can be learned or have demonstrational effects? This Special Issue invites multidisciplinary/transdisciplinary contributions, including, but not limited to, the following topics:

- Carbon finance and carbon emission trading mechanisms;
- Environmental sustainability assessment and high-quality development;
- Environmental regulation and collaborative emission reduction;
- Spatial variability of pollutants at the regional scale;
- Digital economy and green innovation;
- Pro-environmental behavior and green transformation.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
