# **Special Issue**

# Advances in Renewable Energy Technologies for Energy Transition

# Message from the Guest Editors

We invite researchers, academics, and industry professionals to submit articles for the upcoming Special Issue of Sustainability entitled "Advances in Renewable Energy Technologies for Energy Transition". This Special Issue aims to address the growing need for sustainable energy solutions that support the global shift from fossil fuels to renewable energy sources. enhancing energy security, reducing greenhouse gas emissions, and fostering technological innovation. This Special Issue seeks to showcase multidisciplinary research that bridges the gap between theoretical development and practical application, addressing technical, environmental, and socio-economic challenges. Submissions may include original research articles, reviews, and case studies demonstrating the practical implications of renewable energy technologies in real-world contexts.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## **Author Benefits**

### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### **Journal Rank:**

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
