

## Special Issue

# Sustainable Innovation and Management of the AEC Sector in the New Normal

### Message from the Guest Editors

With the dynamic situation of aligning COVID-19, the development of the AEC sector is facing a big challenge. In this context, the aim of this Special Issue of *Sustainability* titled “Sustainable Innovation and Management of the AEC Sector in the New Normal” is to inspire scholars to continue conducting research on sustainable construction innovation and management in the new normal. Submission types such as case studies, original research contribution, systematic reviews, conceptual papers, and experimental and original research contributions are welcomed. Full papers are invited in areas including but not limited to: Sustainable construction technology Energy efficiency BIM application Sustainable building for ageing Sustainable resilience of disaster management Online and mixed mode training Sustainable safety of construction sites Mental health of construction workers Multilocation construction management Online stakeholder management

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
