

Special Issue

Circular Economy and Sustainable Technological Innovation

Message from the Guest Editor

We cordially invite your frontier research in circular economy and sustainable technological innovation for publication in this Special Issue. Of particular interest are the following topics: economics of circular economy, sustainable technology development, innovation for sustainable business and various areas within the scope of this Special Issue. With the business model of circular economy's impacts on nature and society as well as future economic growth, it is necessary to aggregate the latest case studies and data analyses to shape the industry's strategies that can minimize harmful effects while expediting the diffusion of innovative ESG practices. As such, a wide range of research participation from academia, corporations, governments and NGOs is required to develop feasible methods and take meaningful actions. This Special Issue will serve as a key platform for such discussions toward sustainable circular economy. Prof. Dr.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
